### **Mission**

At ASP, we are developing the next generation of commercial spaceflight professionals through the creation of educational, research, certification, and mission opportunities.

To make this possible, we envision a global, multidisciplinary membership whose common goal is the achievement of key milestones in human spaceflight. Ultimately, to make these milestones possible, ASP will facilitate the development of a highly qualified spaceflight professional community.

Our membership offerings are aimed at making this mission possible. Our members join with this vision in mind.

### **Membership Disclaimer**

Due to the fledgling and dynamic nature of commercial spaceflight, we can make no guarantees that our members will fly in space. Instead, we rely on the fact that our membership is individually motivated and committed to advance the frontiers of human spaceflight and to simultaneously develop their acumen for professional advancement.
